THANK YOU FOR YOUR INTEREST IN GEO-LOOP

Tried and tested field experience has proven our Geo-Loop line of equipment to be the easiest to use, most cost-efficient, user-friendly and durable equipment available today. Our grout pumps are a new style that perform to a higher standard in our industry. We were tired of wasting precious time on plugged pumps and broken equipment that didn't hold up to our expectations. After testing many prototypes, we patented the Geo-Loop grout pump in 1999.
